493 - Singletrail Isskogel (Iss-Natural)

momentan GESCHLOSSEN

Iss-Natural
After a few meters on the Blue Line, turn left immediately after the first bend. Short, steep, partly stepped heels are waiting for you. If you do not dare to jump, you can avoid them too. With shallow passages you have time to prepare yourself for the next challenge. At the wooden bridge you have to decide, it goes back to the Blue Line or you venture on an even more difficult track.
